Contents

<i>Population Structures of the Two Banded Seabream, <i>Diplodus vulgaris</i> and the White Seabream, <i>Diplodus sargus</i> Reveal New Records in Maximal Age</i>	194-208
Sandra Agius Darmanin, F. Saadet Karakulak, Adriana Vella*	
<i>Investigation of Joinning Perforate and Filtrate Papers Using Different Joining Methods</i>	209-219
Hasan Özdemirden*, Ersin Bahçeci	
<i>Artificial Neural Networks Method for Prediction of Rainfall-Runoff Relation: Regional Practice</i>	220-230
Fatih Üneş*, Levent Keskin, Mustafa Demirci	
<i>First Record of <i>Pomacanthus imperator</i> (Bloch, 1787) from Turkish Marine Waters</i>	231-236
Mevlut Gurlek*, Deniz Erguden, Burcu Atay, Cemal Turan	
<i>Immunostimulatory and Immunomodulatory Effects of <i>Nitzschia Navis-varingica</i>, <i>Heterocapsa pygmaea</i> and <i>Chrysochromulina alifera</i> whole Cell Extracts on Mammalian Macrophage Cells</i>	237-246
Furkan Ayaz*, Merve Konucu, Elif Eker Develi	
<i>The Spring Outbreak of the invasive Scyphomedusa <i>Rhopilema nomadica</i> Galil, Spannier & Ferguson, 1990 in the Antalya Bay, the eastern Mediterranean</i>	247-252
Mehmet Cengiz Deval*, M. Tunca Olguner	
<i>Glucose Oxidase Applications and Comparison of the Activity Assays</i>	253-267
Gül Özyılmaz*	
<i>New record of <i>Carcharhinus brevipinna</i> (Müller & Henle, 1839) from Mersin Bay, the Northeastern Mediterranean</i>	268-275
Deniz Ayas, Nuray Çiftçi, Hasan Deniz Akbora*	
<i>Mitochondrial Genetic Diversity of Bat Species from the Maltese Islands and Applications for their Conservation</i>	276-292
Clare Marie Mifsud, Adriana Vella*	
<i>New Records of <i>Porpita porpita</i> (Linnaeus, 1758) (Cnidaria: Hydrozoa) in the Mediterranean Sea</i>	293-298
Antonio Oscar Lillo*, Francesco Tiralongo, Elena Tondo	
<i>Effect of Intermittent Aeration and Step-Feed on Nitrogen Removal Performance in Anoxic-aerobic Sequencing Batch Reactor</i>	299-307
Engin Gürtekin*	
<i>Isolation and Characterization of Collagen and Gelatin From Skin of Silver Cheeked Pufferfish <i>Lagocephalus sceleratus</i> for Pharmaceutical and Biomedical Applications</i>	308-314
Servet Ahmet Dođdu*, Cemal Turan, Deniz Ayas
